

What are some safety tips for buying, charging, storing, and using lithium-ion batteries in devices like laptops, phones, tools, and more?

Discover how Kampala's advanced lithium battery solutions are transforming energy storage across multiple industries. From solar integration to industrial applications, explore the technology driving ...

As Uganda's first diversified lithium battery production company, we provide world-class stationary energy storage and e-mobility solutions designed for performance, safety, and reliability for people, ...

This training course equips energy professionals with the tools and knowledge to implement and manage battery storage systems in diverse applications.

Safety storage cabinets for passive or active storage of lithium-ion batteries according to EN 14470-1 and EN 1363-1 with a fire resistance of 90 minutes (type 90) -- fire protection from the outside-in and ...

UBL Solar batteries are durable black polypropylene deep cycle batteries and come in the following sizes; EB50 50AH, EB70 70AH and, EB100 100AH. We have distilled water with a maximum ...

In early 2023, an electrical fault at the Kampala Energy Storage Power Station led to a thermal runaway incident, causing partial damage to battery modules. This event has sparked global discussions ...

Lithium-ion batteries may present several health and safety hazards during manufacturing, use, emergency response, disposal, and recycling.

This study develops an integrated techno-economic and policy framework to evaluate battery-swapping-based electrification of boda-boda fleets in the Greater Kampala Metropolitan Area ...

We provide reliable battery testing and replacement services in Kampala, helping drivers stay confident on the road. Whether you drive a car, SUV, 4&#215;4, truck, bus, or manage a commercial fleet, our ...
