

Can photovoltaic panels be installed for free

Are solar panels free?

When companies advertise "free solar panels" or "no-cost solar programs," they're often referring to solar leases or solar PPAs. Under these solar financing arrangements, a solar company will put a solar panel system on your roof at no up-front cost for installation, enrollment, or maintenance. This sounds great.

Can you get solar panels on your roof?

Under these agreements, you can get solar panels on your roof for no out-of-pocket costs—but you also won't own the system or be eligible for most solar incentives. If you don't want to spend any money upfront, financing your system with a \$0-down solar loan is usually your best option.

Can you go solar with no upfront cost?

You can go solar with no upfront cost by taking out a \$0-down loan, signing a lease or PPA, or subscribing to a community solar farm. Of the no upfront cost solutions, \$0-down loans provide the best long-term savings. If you can purchase your system outright, you'll see the highest return on investment overall.

Should I buy a rooftop solar system?

Buying your rooftop solar panel system outright is the best value over your system's 25-30-year lifetime. Even though your initial cost could be steep, you can reap all the financial benefits and savings associated with going solar (incentives, tax credits, and more).
