This 20ft collapsible container solution features 60kW solar capacity and 215kWh battery storage. Built with robust 480W modules, it powers extended off-grid missions, from microgrids to rural factories, ...

## **Distributor of 20-foot Off-Grid Solar Containers for Base Stations**

Our containerised off-grid solar solutions are fully customizable, and our team of experts provides end-to-end support, from site assessment to installation and maintenance.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

This container can be run solely off batteries or you can just plug it in. Without the batteries it's self-sufficient with the sun up if you don't have it plugged in.
