Discover the key differences between off-grid vs on-grid solar system in Ghana. Learn which solution best fits your energy needs and budget

Ghana recently launched its Scaling-up Renewable Energy Program (SREP), aimed at enhancing access to electricity for off-grid communities. The program comprises the development of ...

When deciding between an on-grid and off-grid solar system in Ghana, it's essential to assess your energy needs, financial situation, and access to infrastructure.

Speaking at the launch, the Minister for Energy and Green Transition, Hon. John Abdulai Jinapor, emphasized the initiative's importance in transforming rural lives and bridging the energy divide.

The SREP initiative will see the construction of 35 mini grids and the installation of 1,450 solar home systems across the Bono East, Oti, and Savannah regions.
