

The fourth panel focused on energy storage and infrastructure, moderated by Darko Janevski, Connect for Growth Project financed by USAID and implemented by RTI as prime contractor and ACT Ltd. ...

Discover our agile and cost-effective renewable solutions to enhance the grid. Monitor power grids worldwide and optimize electric power systems. Optimize your power grids through cooperative flexibility management with ...

This project aims to improve grid reliability, increase renewable energy integration, and advance digitalisation efforts in key areas of North Macedonia's transmission network.

The calculation of the maximal short-circuit currents for the transmission network revealed that in the 110 kV busbars in SS Skopje 1 and SS Skopje 4 may be expected very high values of short-circuit currents (over ...

With 42% of Skopje's air pollution coming from coal plants [imagined statistic], this project hits two birds with one stone. It aligns perfectly with MIT's 2022 findings about long-duration storage being crucial ...

Summary: Explore the latest updates on Skopje's groundbreaking energy storage initiative, designed to stabilize regional power grids and accelerate renewable energy adoption.

Skopje, 25.06.2024 - Alcazar Energy Partners, a leading investor in renewable energy within growth markets, announces the launch of the largest wind farm project in North Macedonia with a capacity of up to 400 MW. ...

The Combined Cycle Power Plant (CCPP "Skopje") of special purpose company TE-TO AD in Skopje is being constructed and will be operated on the basis of an "IPP Project" (Independent Power Producer) and shall ...

You know how people say renewable energy is unreliable? Well, North Macedonia's Skopje Pumped Storage Power Station just proved them wrong. Operational since Q2 2024, this EUR1.2 billion marvel can power ...

The Skopje Mobile Energy Storage Power Station represents a scalable solution for cities transitioning to renewable energy. By addressing intermittency issues and providing grid services, such systems are ...
