

The features of the LZY-MS4 include solar-powered efficiency, mobility, and precision temperature control, ensuring a cold-chain solution that is more reliable and sustainable than its conventional fuel ...

MOBIPOWER HYBRID Containerized Clean Power is Mobismart's high-capacity autonomous power solution, integrating solar panels, hydrogen fuel cell, and large-scale battery energy storage within a ...

SolaraBox Mobile Solar Container brings green energy wherever you need it. The integrated solar system delivers 400-670 kWh of energy daily. Thanks to foldable solar arrays, the container is ...

Solarators(TM)--sustainable, off-grid refrigeration powered entirely by the sun. Designed for high-performance, temperature-controlled cold storage, Solarators™; operate as efficiently as industrial ...

Highjoule's mobile solar containers provide portable, on-demand renewable energy with foldable photovoltaic systems (20KW-200KW) in compact 8ft-40ft units.

At Solar Ice Box, we specialize in cutting-edge, solar-powered refrigerated container solutions designed to revolutionize food preservation and supply chain efficiency.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Cool-Watt™; is a solar power plant designed as a 20 feet maritime container, pre-cabled and pre-tested so that it can be deployed in less than 1 hour without civil engineering or specialists.

The Aldelano Solar ColdBox(TM) is an industrial-grade, portable, solar-powered cold storage mini-warehouse that provides a completely renewable power source, offering both refrigeration and ...

The features of the LZY-MS4 include solar-powered efficiency, mobility, and ...

The SelfChill Cold Room includes everything you need for a final plug-and-play installation at your location. It is an autonomous, solar-powered cooling system that can be integrated into various ...
