

Huawei exports solar modules to the Vatican

The Holy See and the Italian Republic have signed an agreement to build an agrivoltaic plant in the Vatican's Santa Maria di Galeria area just outside of Rome, aiming to supply Vatican City State with ...

The Vatican is now completely powered by a farm that sports solar panels to help shade-tolerant crops thrive. This new coupling of solar and agriculture is growing fast.

The project aims to meet the full energy needs of both the Vatican State and Vatican Radio using solar technology integrated with agricultural activity.

To achieve his aim, solar panels will be installed on a Vatican-owned property outside Rome. The power generated could supply all of Vatican City's energy needs.

With the Apostolic Letter "Fratello sole," issued motu proprio, Pope Francis provides for the construction of an agrivoltaic plant in the extraterritorial zone of Santa Maria in Galeria, where Vatican Radio ...

The project--which will produce solar energy while preserving the agricultural use of the 1,000-acre site--will be located at Santa Maria di Galeria. The agrivoltaic plant will provide energy for...

Pope Francis has ordered the construction of a solar power plant to supply the Vatican's electricity needs. He did so with the apostolic letter in the form of Motu proprio Fratello Sole,...

Italy has agreed to a Vatican plan to turn a 430-hectare (1,000-acre) plot of land north of Rome into a vast solar farm that will generate enough electricity to meet the needs of Vatican City.

The Vatican has been seeking to drastically reduce its environmental impact by adopting more renewable energy sources, pursuing a goal of zero emissions by 2050 and assembling a net-zero-emissions fleet of ...

When installing the photovoltaic panels, the challenge was to fit leading-edge technology around the fabric of the historic building. As a first step, we removed 4,800 concrete elements from the roof of the Audience Hall
