

What are the economic benefits of solar energy in Ireland?

Commissioned by Solar Ireland, this report assesses the economic benefits of the Irish solar energy industry, find that if the Climate Action Plan targets are met, the sector will contribute over EUR2.3 billion in Gross Value Added (GVA) to the Irish economy between 2025 and 2030, while supporting up to 7,000 jobs across the country.

Is Ireland ready for solar?

With over 1 million homes suitable for solar PV, Ireland has enormous untapped potential. Solar is fast becoming one of the main pillars of Ireland's clean energy transition. In just two years, Ireland's installed solar capacity has increased by 159.8%. Scale of Solar 2025 showcases this extraordinary growth and explores where we go next.

What does the 'scale of solar' report mean for Ireland?

The Irish Solar Energy Association's 'Scale of Solar' report highlights the remarkable growth of solar energy in Ireland and its significant impact on redefining our dependency on fossil fuels.

How much solar power does Ireland have in 2024?

Discover the latest findings from the Irish Solar Energy Association (ISEA) in our 2024 Scale of Solar report. Ireland has experienced a remarkable 42.6% increase in solar capacity, now reaching 1,185MW. This surge is equivalent to powering 280,000 homes annually, reduce carbon emissions by 270,000 tonnes, and includes 373MW from domestic rooftops.

Greencells extends Irish solar EPC contract with state energy company ESB European engineering, procurement and construction (EPC) firm Greencells Group has signed with Irish state ...

Search all the announced and upcoming solar photovoltaic (PV) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Ireland with our comprehensive online database.

Solar Ireland is dedicated to being a primary resource for its members and the public on all things solar. Our reports below are updated regularly, and will provide all the information you need to stay in the ...

German contractor Greencells said on Thursday it has signed an engineering, procurement and construction (EPC) contract with Irish utility ESB for a second phase of the ...

The project will finance the construction of four solar photovoltaic plants (PV) totalling 395 MWp in Ireland.

Dublin, 30 September 2025 The L&G NTR Clean Power (Europe) Fund today announces the acquisition of Ballydonagh Solar Limited, a 105MWp solar project, from renewable energy company, RES. ...

The Irish solar glass market stands at a critical inflection point, shaped by the powerful convergence of national decarbonization imperatives and a transformative energy security agenda. ...

2.1 Procedure Title: Solar PV and Battery Storage Project Description: We are seeking quotes for the supply, installation, and commissioning of behind the meter SOLAR PV roof-mounted system, up to ...

Find Ireland renewable energy bid invitations, tenders, bids, procurement, RFPs, RFQs, ICBs. Search for Ireland renewable energy tenders online. A more comprehensive list of sectors and ...

How will solar power impact the Irish energy industry? Solar power is going to play a huge role in the future of the Irish energy industry, with at least 8GW of capacity to be delivered by 2030 according to ...
