

Is JA Solar's photovoltaic panels installed for free

How much do JA Solar panels cost?

JA Solar panels cost between \$80 - \$170, making them an affordable option considering their high output. JA Solar panels are well-reviewed, with multiple outlets and consumers highlighting their affordability and reliability.

Is JA Solar a good company?

JA Solar has a strong manufacturing foundation: established in 2005, JA Solar has proven production capabilities with multiple global facilities and billions in annual output. JA Solar panels are known to be very affordable and efficient. Since it is a Chinese company, the panels can be hard to come by in the US.

Does JA Solar install solar panels?

As we discussed above, JA Solar is not an installer and only manufactures PV equipment. As such, you'll need to choose a solar panel installer that carries JA panels and work with the provider to have your system installed.
