

What is the Israeli energy storage Council?

Based at Bar-Ilan but to be run in conjunction with the Technion-Israel Institute of Technology in the northern city of Haifa, the body will oversee the development, training, and commercialization of energy storage technologies.

What is a battery energy storage system (BESS) project?

We specialize in the development of battery energy storage system (BESS) projects, which are crucial components in advanced energy storage solutions. Our large portfolio of generation assets with grid connection enables us to add BESS to existing projects and develop additional solar-plus-storage facilities.

Who inaugurated the new National Institute for energy & electrochemical storage?

Energy Minister Eli Cohen (fourth from right) helps inaugurate the new National Institute for Energy and Electrochemical Storage at Bar-Ilan University, near Tel Aviv, June 3, 2025. (Shlomi Mizrahi, Bar-Ilan University)

How much money does Israel spend on a new research institute?

The institute's innovative research infrastructure will serve all researchers in Israel, and its establishment is very significant news." The Energy Ministry provided NIS 100 million (\$28.4 million) for the new institute, with Bar-Ilan funding the remaining NIS 30 million (\$8.5 million).

New NIS 130 million center will pioneer energy storage as renewables gain ground First-of-its-kind institute in Israel, based at Bar-Ilan University and run together with Technion, will link ...

Israel-based thermal energy storage firm Brenmiller Energy has inaugurated a factory targeting 4GWh of annual production capacity by the end of 2023, the first such gigafactory ...

We deliver energy storage solutions in both Solar-plus-storage and standalone projects, and add energy storage systems to existing projects.

Discover how GSL Energy's high-voltage rack-mounted energy storage system and DEYE inverter are powering Israel's energy transition. With a modular design, intelligent temperature ...

Israel has awarded 1.5 GW of energy storage contracts across 11 projects, with a total investment of \$840M. The projects, set to be operational by 2027, will enhance renewable energy ...

Our Vision To be a leader in the Energy storage field in Israel and worldwide, by utilizing the most advanced technologies and providing the optimal results for our clients. We successfully ...

As Israel accelerates its transition to renewable energy, secondary lithium batteries have become a cornerstone of the country's energy storage strategy. This article explores the growing role of lithium ...

Israeli storage technologies are being deployed in utility-scale projects, microgrids, and industrial applications across the globe. From stabilizing electric grids in Europe to providing reliable ...

Global energy storage firm HiTHIUM has entered a strategic partnership with El-Mor Renewable Energy, a major Israeli EPC contractor. This collaboration signifies a key step in ...

A Strategic Leap Toward a Sustainable Energy Future In a milestone event for Israeli innovation, Minister of Energy and Infrastructure Eli Cohen and Bar-Ilan University President Prof. ...
