

All you need to know about the JAM72S09 -380/PR solar panel including rating, cost, efficiency, and warranty terms.

The JA SOLAR 380W Datasheet serves as a technical blueprint for the solar panel. It details vital specifications such as the panel's power output, voltage, current, and efficiency under Standard Test ...

JA-JAM72-S09-380PR produces 380 W of power under typical test settings. Excellent temperature coefficient means more energy as temperature rises. Every 1.8°C hike above 77°F will decrease your panel's efficiency ...

We accept inquiries from commercial customers only, please login or register new with us. Powered by high-efficiency PERCIUM cells, this series of high-performance modules provides the most cost-effective solution ...

The JA Solar 380W panel incorporates half cell assembled modules, significantly boosting power output and daily performance. This innovative design minimizes shading effects, ensuring efficient energy generation ...

JA-JAM72-S09-380PR produces 380 W of power under typical test settings. ...

Assembled with high-efficiency PERC cells, the half-cell configuration of the modules offers the advantages of higher power output, better temperature-dependent performance, reduced shading effect on the energy ...

Unlock the potential of solar energy with the solar panel JAM60S20-380/MR (SFR) from JA Solar, which has a rated output of 380 watts and makes your power generation more sustainable.

At AutoSolar you can purchase the Ja Solar 380W Monocrystalline Perc Panel for both the smallest off-grid solar kits, or use them in grid connection systems or in large installations.

JAM72S01-380/PR Solar Panel Product Information - (380W) by Shanghai JA Solar Technology Co Ltd including datasheet and warranty information where available.

The 380W JA solar panel is a monocrystalline PERC module, ideal for self-consumption and industrial solar installations that want to obtain maximum power per square metre.
