

PASH Global and ERIH Holdings have formed a joint venture to develop utility-scale solar and battery storage projects in Paraguay.

A joint venture (JV) formed by investors PASH Global and ERIH Holdings reportedly plans to develop utility-scale solar power facilities and battery energy storage system projects in Paraguay.

As Paraguay's capital pushes toward renewable energy independence, the Asuncion photovoltaic energy storage export market has become a hotbed for innovative solutions.

Combining high-speed rotational mechanics with smart grid integration, this initiative addresses voltage fluctuations and storage gaps in solar/wind systems. Discover how flywheels outperform traditional batteries ...

The hybrid systems we're installing in Chaco region combine bifacial panels with flow batteries, achieving 92% availability during last month's grid fluctuations.

But when Asuncion's shared storage model slashes electricity bills by 40% for local businesses \*cue jaw drops\*, suddenly everyone's listening. This innovative approach combines battery storage systems ...

This article explores the city's operational and planned storage facilities, their impact on Paraguay's energy grid, and how companies like EK SOLAR contribute to this green transition.

As a leader in solar energy solutions, Sunpal is committed to making VPPs a reality in Paraguay by providing high-quality solar panels, inverters, and energy storage solutions.

Paraguay's public utility Administracion Nacional de Electricidad (ANDE) announced on Wednesday that it will build and operate a solar farm with storage within an indigenous community in Puerto ...
