

This report examines ways that state and local governments can optimize the financial structure of deploying solar PV for public uses. A number of revenue streams, incentives, and financial structures ...

A variety of state-owned enterprises participate in solar photovoltaic endeavors, including power generation corporations, renewable energy specialists, and utility providers.

Local governments have many tools at their disposal to influence solar energy development. At the same time, decisions made at the federal and state levels set the context for local action and impact the ...

A state-owned enterprise (SOE) is an entity formed by the government for the purpose of engaging in commercial activities. The government usually takes either full or partial ownership of any SOEs, which ...

Looking at the current participants in offshore photovoltaic projects, central and local state-owned enterprises have become the absolute mainstay of development at this stage, relying on their absolute ...

This report examines ways that state and local governments can optimize the financial structure of deploying solar PV for public uses. A number of revenue streams, incentives, and financial structures can be utilized ...

This map of the United States shows which states and territories authorize the third-party PPAs for solar PV, which includes at least 28 states (plus Washington, D.C., and Puerto Rico).

The loan guarantee will finance the deployment of up to 1,000 solar photovoltaic (PV) systems and battery energy storage systems (BESS) located primarily at commercial and industrial facilities and ...

Using the case of a state-owned power generation enterprise, this paper explores pathways for the Enterprise to reach carbon emissions peak and carbon neutrality in five ...

Explore the latest solar market insights and policy updates in all 50 states and Washington, D.C. All market data is current through Q3 2025. California leads as the top solar state. With over 54 GW of solar installed, ...

The Office of the State Fire Marshal (OSFM) is releasing this information to provide guidance for Photovoltaic (PV) installations on State owned and specified State-occupied buildings.
