

The ECOTAPE A is a fully automatic inline edge taping machine designed specifically for solar panels. It automates the application of tape along the edges, effectively replacing the traditional silicone ...

3M(TM) Solar Edge Tape 1060 is specifically designed for solar module sealing and protection. It consists of high-quality acrylic foam adhesive with superior weathering black backing film.

At Changzhou Nano Electrical, our mission is clear: to provide comprehensive tape services for both domestic and international Photovoltaic companies.

Guangzhou Milesun is specialized in supplying and manufacturing a wide range of rubber and silicone products and parts, provide solution from molded rubber products and rubber extrusions to die-cut ...

For edge sealing applications, NEXGEN CMI offers automated dispensing setups that apply a continuous, uniform sealant bead around the panel edges with excellent accuracy. Our solution ...

Offers flexible operation and high yield. Automatically performs ...

Offers flexible operation and high yield. Automatically performs G2G module four-side edge sealing with fast changeover and high precision. Servo-driven sealing modules apply and press tape using soft ...

Horad New Energy is a reputable manufacturer and supplier based in China, offering a wide range of 300MW Automatic Edge Taping Machine products. With our advanced production facilities and ...

Our edge seals are crafted with durability and performance in mind, ensuring long-lasting protection for your photovoltaic panels. As an experienced exporter, we understand the unique demands of OEM ...

Trusted by PV module manufacturers for more than 20 years, this solar edge seal tape protects cells, connections and transparent conductive oxide coatings from moisture ingress, helping ...

Sika adhesive technologies empower photovoltaic, CSP and solar thermal providers with enhanced design options, cost reductions, and efficiency through material savings and process improvements.
