

Plc industrial control 3 6v solar battery cabinet lithium battery pack

The 3.6v lithium battery plc battery is a specialized power source designed for programmable logic controllers (PLCs). These batteries are essential for maintaining the memory and timekeeping ...

Industrial 3.6V lithium backup battery pack designed for PLC, CNC and robot controllers that use the ER3V 3.6V cell with 2-pin black connector. This pack is commonly used to retain programs, ...

Choose from our selection of PLC batteries in a wide range of styles and sizes. Same and Next Day Delivery.

Product Catalogue - PLC Batteries for programmable logic controllers and industrial computers PLC Batteries ... If you don't find the battery you are looking for in this list, contact us by email. Use the ...

LS14250-TSX 3.6 Volt 1200 mAh PLC Lithium Battery. Designed to work in Schneider Electric / Telemecanique TSX17, TSX17 Micro, TSX17-10 and TSX17-20 Programable ALogic Controllers ...

Stable working voltage and good safety. 2. Low self-discharge rate gives this cell a 10 year shelf life. 3. Broad temperature range (-55°C to +85°C). 4. High energy, high reliability.

Shop LS14500-MER 3.6V PLC lithium battery replacement. Custom-built for Mitsubishi PLCs, Mazak Fusion Control, and IAI robotics. Long shelf life, stable voltage, wire leads connector.

This non-rechargeable aftermarket lithium battery replaces ABB 4943013-6 batteries for programmable logic controllers (PLC) and industrial computers. Lithium batteries provide stable voltage, high ...

Stable working voltage and good safety. 2. Low self-discharge rate ...

We specialize in exact replacement aftermarket PLC CPU batteries which are engineered and assembled right here in the USA to keep quality high while saving you money.

Description: This is a one cell 1/2AA battery designed for programable logic controls and industrial computers. Low self discharge rate gives this cell a 10 year shelf life. Stable voltage and ...
