

Portugal's solar capacity reached 6.17 GW in May, according to the country's renewable energy association. While distributed generation is steadily expanding, a quicker rate of deployment...

Finerge signs a 10-year PPA with Galp to supply 700 GWh of solar energy annually from a 225 MW portfolio in Portugal. Discover how this deal supports hybridization, sustainability, and long ...

At the core are utility-scale solar farms, developed by global players like EDP Renov&#225;veis, Voltalia, and Iberdrola. These projects typically operate under Power Purchase Agreements (PPAs) or sell ...

Driven by ambitious climate targets--including a goal to generate 80% of electricity from renewables by 2026--Portugal is leveraging its abundant solar irradiation, investor-friendly ...

The top five developers, EDP Renov&#225;veis, Iberdrola, Voltalia, Greenvolt, and Acciona, control 62% of utility-scale pipelines, placing the Portugal solar energy market in a moderately ...

With record growth in capacity and generation, strong contributions to reducing fossil fuel use, and ambitious 2030 deployment targets, solar is central to Portugal's energy transition -- ...

Portugal Solar Energy Market size was valued at USD 3.89 Billion in 2024 and is projected to reach USD 9.

Portugal holds a great potential for solar market, giving the abundant solar exposure and supportive regulations. As of June 2022, solar is the fastest-growing energy source in Portugal, with almost 2.2 ...

Portugal has recently expanded its solar energy capacity by 625 MW, a push marked by several pioneering projects. Two major initiatives highlight this growth: Europe's largest floating ...

The Spanish energy giant has made significant investments in Portugal's solar sector, developing several utility-scale projects that contribute to the country's renewable energy transition.
