

Designed for mobility and fast deployment, our foldable solar power containers combine solar modules, storage, and inverters into a single transportable unit. Ideal for emergency scenarios, ...

Over the next seven years, the program will support Seychelles' energy transition by scaling up renewable energy, reducing carbon intensity, and unlocking private sector investment through grid ...

It targets an ambitious transformation and diversification of the Seychelles' currently 85 MW diesel-dominated electricity generation capacity (on Mahé, Praslin and La Digue), aiming at replacing diesel ...

The power station series has a wide range of products, with a variety of structures and functions, among which mobile power stations and low-noise power stations are widely used.

The Seychelles Energy Storage Station isn't just another infrastructure project - it's the backbone of an island nation's quest to marry sustainability with reliability. Let's unpack how this Indian Ocean ...

Battery manufacturers are collaborating with utility companies to implement iron flow battery projects, aiming to replace diesel-fueled power generation with the more environmentally friendly flow battery ...

Seychelles Solar Container 80kWh Why is Qair launching a floating solar plant in Seychelles?The floating solar plant to be developed by Qair is a key part of Seychelles' energy transition and a ...

Seychelles' power generation installed capacity is currently about 129 Megawatts (MW), mostly by the Public Utilities Corporation (PUC). The power generators in place mainly use imported HFO (Heavy ...

While a microgrid is in the on-grid mode, it can receive energy from the main grid, and the energy storage system should make the longest cycle life as its optimal goal, and choose the appropriate ...

To date, affordable and effective solar and battery storage systems have opened up new possibilities for the archipelago, particularly in its high-end tourism sector.
