This solar light kit offers an affordable solar light system perfect for providing solar powered security light solutions in shipping containers, isolated containers, garages, basements, cabins, remote cabinets, ...

Lighting your storage units is a great value addition. Here are some different and new ways that you can use to add lighting to your space.

The size of the solar panel and the amount of battery storage depend on how much you will use the lighting in a single day, the actual location of the installed system, and the historical weather data for that area.

Each system design includes detailed installation diagrams and instructions. All Plug and Play (PnP) cables are custom made for the lengths required with connectors.

With night time and occupancy sensors, your light will turn on when it is needed. Alternatively, you can simply use the remote and auto dimming to set it to your preference.

Brighten the inside of your container with natural light using our Solar LightBlaster specifically designed for Conex brand containers. It is a solar tube skylight at a very affordable price. Installation ...
