

The ON/OFF controllable DC-DC converters with 5V 1A output satisfies the needs of various solar power projects and low-power applications. The module also employs various protection functions for ...

This controller automatically recognizes 12V or 24V. When installing for the first time, please make sure that the battery has enough voltage so that the controller can recognize the correct battery type.

This product is mainly used in solar folding bags and solar chargers, and can charge digital products such as for mobile phones, MP3, MP4, power, etc. Wide input voltage range, input DC voltage 6 ...

1 x 5V 2A Solar Panel Power Bank Module with black shell. Maximum output current: 2000mA (2A). hope you could understand.

Waveshare Solar Power Manager Module (D), Solar Charge Controller USB, Supports 6V~24V Solar Panel and Type-C Power Adapter, 5V/3A Regulated Output, with Battery Holder ...

Solar Power Manager 5V is a small power and high-efficiency solar power management module designed for 5V solar panel. It features as MPPT (Maximum Power Point Tracking) function, ...

The module is designed for 5V (nominal/maximum power voltage) solar panel. Any kinds of panel (monocrystal, polycrystal, thin flim) can be employed as long as the open circuit voltage is less than ...

Discover the efficiency and reliability of our Solar Charge Controller 5V. Ideal for small-scale solar power systems, this controller ensures optimal charging of your batteries, maintaining peak performance.
