

Who is the best solar company in Louisville?

Here are the top companies we recommend for solar in Louisville: Several friends also have used Sam Avery (Avery and Sun) for their Solar systems with excellent results. By having a solar power system installed, you can decrease your carbon footprint, greatly reduce your utility costs, and increase your property value!

Who is solar energy solutions?

Solar Energy Solutions is a local, family-owned solar panel installer that's built on quality. We've been in business since 2006 and are the oldest and most experienced solar installer in the region. We are a values-driven company doing what's best for our customers and what's right for our planet every single day.

How much does solar cost in Louisville?

The average price of solar is about \$1.87 to \$2.81 per watt in Louisville, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.

Who should I choose for solar in Louisville?

We look for solar companies with owners who understand that when they sell you a solar system, you expect them to be there for the next 25 years to fix any issues that may arise. Here are the top companies we recommend for solar in Louisville: Several friends also have used Sam Avery (Avery and Sun) for their Solar systems with excellent results.
