

Solar inverter central enterprise won the bid

In the first half of this year, as the price of the photovoltaic industry chain fell, the suppressed domestic demand was suddenly released, and central state-owned enterprises launched bidding projects of ...

On May 12, the winning bid results for the procurement of PV modules and inverters under framework agreements for the PV power plants of China Railway Shanghai Group Co., Ltd. were announced.

Colin Electric was determined to win the bid for the string inverter equipment procurement project of the China Resources Caofeidian Petrochemical Industrial Base Green Low-Carbon Energy Photovoltaic ...

Summary: A central enterprise specializing in photovoltaic inverters recently secured a significant bid, highlighting advancements in solar energy technology and market competitiveness.

According to the information of public bidding, 15 enterprises and 57 inverter procurement projects (bid sections) were awarded from September 1 to September 30, with a total capacity of 12.84GW.

China Datang Corporation (CDT) has selected Sungrow and Solis for its 1GW solar inverter project from 2023 to 2024. This announcement follows the unveiling of the bid results for the ...

The project with the highest bid was the procurement of inverter equipment for the 100MW solar hydrogen storage project phase II in Waigoumen, Fengning, Hebei. The tenderer for the project was ...

Opening bids for the largest centralised procurement tender in China's PV history have come in, with 51GW each of PV modules and inverters on the table. The massive tender, initiated by...

CHN Energy has wrapped up its 10 GWPV inverter tender for 2023, with Huawei securing orders for 4.1 GW of string inverters and Sungrow obtaining 1.85 GW. CHN Energy has announced the results of ...
