What is solareast's residential energy storage system?

SolarEast's residential energy storage system, designed for homes, villas, sunrooms, and communities, stores solar energy to reduce power bills and ensure reliable day-and-night energy use. Discover how SolarEast deployed a 13kW PV + dual 8kW hybrid inverter + 20kWh wall mounted battery backup BESS system in Africa.

What is a photovoltaic energy storage system?

A photovoltaic energy storage system offers the ability to store excess solar power and use it when needed, ensuring a continuous, reliable energy supply. This advanced technology transforms residential solar setups into self-sufficient power sources, reducing dependency on the grid and lowering electricity bills.

Who uses solareast solar batteries?

SolarEast solar batteries and solutions are recognized and welcomed by customers worldwide. Our targets are focused on the following markets: industrial and commercial energy storage systems, Telecom Energy Storage Systems (TESS), transportation/utility energy storage, and large/medium/small backup power systems.

SolarEast offers Energy Storage Systems (ESS) for residential, commercial & industrial applications, including portable power stations, inverters, heat pumps, EV chargers, etc.
