

What is Swarco Econnect?

The Swarco E.Connect charging network has been growing steadily in the UK since its introduction in 2018. Backed by Swarco eVolt, a company that supplies charging stations, the network also has a number of partnerships that have helped increase its size. One such partnership is with ChargePlace Scotland.

Where are Swarco Econnect charging points located?

Swarco E.Connect has a large expansive network of charging locations spanning most of the UK. They have charging points in all constituent nations except Northern Ireland. Most of their chargers are in England, but they also have quite a few in Scotland and Wales.

Does Swarco E connect charge?

Swarco E.Connect provide charging for customers with the Swarco E.Connect app downloaded, an RFID card or contactless cards. They don't have a membership option which offers discounted charging. Their charging tariffs differ from location to location, so the best way to find out each location's price is to check their app or website.

How much does Swarco charge per kWh?

Their rapid chargers cost 79 per kWh. Swarco E.Connect is a good charging station with various charging speeds and good locations. They have some of the UK's fastest chargers and convenient charging locations. However, they lack consistent pricing and locations outside select areas.
