

The world's largest solar power generator for home use

Ecos PowerCube® is the world's largest, mobile, solar-powered generator. It runs on high power photovoltaic panels that extend from its container combined with an easy to set up wind turbine.

Whether you're seeking a highly portable option or need one that's heavy-duty enough for extended use, these are the best solar generators we've tested and researched to date.

We rated and reviewed the best solar-powered generators for home backup during power outages, including models from Generac, Jackery, and more.

Explore the top 3 most powerful solar generators with an overview and analysis of how to enhance your solar setup's efficiency.

Large solar generators offer substantial battery capacity and high wattage outputs to power multiple household appliances and electronic devices efficiently. Below is a comparison table summarizing ...

Having tested all the contenders, I can tell you that real-world performance, durability, and charging speed make the difference. The OUKITEL P2001 PLUS 2400W Portable Power Station ...

OverviewDescriptionFossil fuel consumptionEconomic impactPerformanceEnvironmental impactsIn popular cultureExternal linksThe Ivanpah system consists of three solar thermal power plants on 3,500 acres (1,400 ha) of public land near the California-Nevada border in the Southwestern United States. Initially it was planned with 440 MW gross on 4,000 acres (1,600 ha) of land, but then downgraded by 12%. It is west of south Interstate 15, north of Ivanpah, California, and adjacent to the Mountain Pass mine, the United States' only source of rare-earth minerals

Portable solar generators offer a green solution for powering up during electrical outages or off-grid excursions. Find out how today's top models fared in our hands-on tests.

The big picture: The Ivanpah Solar Electric Generating System, located in California's Mojave Desert, is the world's largest solar generator, featuring 500,000 mirrors harnessing the sun's ...

The Jackery Solar Generator 1000 v2 offers a perfect blend of power and portability for home backup and off-grid scenarios. Its 1070Wh LiFePO4 battery supports a 1500W AC output with ...

The Ivanpah Solar Electric Generating System is a concentrated solar thermal plant located in the Mojave Desert at the base of Clark Mountain in California, across the state line from Primm, Nevada.
