YEREVAN, August 7. /ARKA/. The Electric Networks of Armenia issued today a statement explaining frequent power cutoffs in Yerevan. "Consumption of electricity in Armenia has grown because of ...

Electric Yerevan had been preceded by previous smaller movements against price hikes on marshrutkas public transportation and a new mandatory pension savings system. Then in June 2015, the Armenian Public Services Regulatory Committee (PSRC) increased the price of electricity for the public. The cost increased by 7 drams (US\$0.01) per kilowatt hour, to be effective on August 1, 2015. This was the third price increase for electricity over the last few years, with most recently in 2013 having it risen by about ...

Electric Yerevan is a pivotal NGO that emerged from the grassroots mobilization against rising electricity prices in 2015. This movement catalyzed a collective spirit among citizens, leading to self ...
